

FLASH REFLEX TRAINING

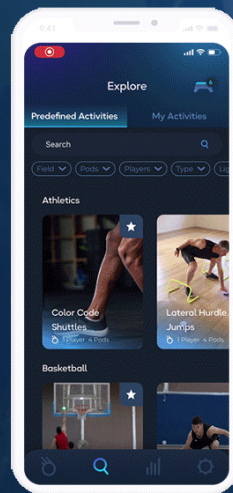

THE BLAZEPOD

BLAZEPOD triggers your body's natural response to sensory stimulations, enabling superior, fast and coordinated movement.

Tap-sensitive Pods powered by the BLAZEPOD app provide visual cues, creating the ultimate Flash Reflex training system.

Simply download the user-friendly app from Google Play or the App Store, and take control of your Pods. Choose from predefined activities or create your own, from one of BLAZEPOD's many light logics, and track your performance down to the millisecond.

THE APP

BLAZEPOD

STANDARD DELUXE KIT
